## Novaroma Full Product Key Free Download X64

Novaroma is a simple to use application that allows you to watch your favorite movies and track episodes for TV shows or documentaries. The program allows you to create collections, organize them on your computer, as well as download subtitles files in various languages. Watch your favorite TV series Novaroma allows you to find and track your favorite shows, both concluded and currently airing. The powerful searching engine allows you to find movies, series and documentaries based on their title and offers you several options, ordered by their popularity. The program acquires information such as poster, IMDb rating, episode guide (when available) or release date, after selecting the desired title. You may also insert several filters, such as video quality or keywords. Novaroma also features a function that allows it to automatically acquire new episodes, when available. Moreover, you can save each TV show/movie to a separate folder on your computer, in order to effectively organize them. Video discovering function Novaroma features a powerful searching function which allows you to find movies, TV shows or documentaries, based on several criteria. The title, year range, IMDb rating, votes or runtime are a few examples of the filters you can set. You may also create a complex genre parameter, in which to select several options. Novaroma allows you to add several files to the collection, including movies / TV shows that are already stored on your computer. It can easily download artwork, rating, cast information and release date. Useful digital media agenda Novaroma works as an effective movie organizer, allowing you to store all the titles on a single page and watch them at any time. The software allows you to track episodes or discover shows based on complex filters. Moreover, thanks to the auto-download features, you can easily keep up with your favorite movies or series. It is like having a personal "TV guide" that is always updated and right at your fingertips. What's new in this version: Update of the video component (added YouTube and Vimeo links). Fixed a crash when an incomplete list of movies was searched for. Fixed a small bug when clicking "Refresh" did not update the list of movies. Fixed the "Duplicate" button on the content list. Small bug fixed when the program displayed the correct size of the images. New in version 6.4.7: Google video search option added. The content list is now able to display movies from the Google video index
